SAND POINT AIRPORT

Contents:

- A Pavement Strength Form showing project history, latest Pavement Condition Index (PCI) data, pavement strength ratings (if available) and other useful information
- A Pavement Condition Survey PCI Sample Unit Layout Plan
- PCI maps showing as-measured and predicted pavement conditions
- Age map showing pavement age as of January 2002
- A Branch PCI Condition Report
- A Section PCI Condition Report

Airport Information:

• Location:

Sand Point Airport is located on Popov Island, just south of the Alaska Peninsula. It is a Commercial Airport primarily serving passenger, cargo and charter airplanes.

• District: Southwest, Central Region

Airport Manager: Gerry Dias
 District Maintenance Manager: Andy Peterson
 Pavement Surface: Asphalt Concrete

• Last Pavement Construction: 1993

• Pavement layout:

The Runway is designated as 13-31 with asphalt concrete pavement measuring 4000' x 150'. Taxiway A and Taxiway B provide access to the Apron. Taxiway C is an Apron Taxilane. It is maintained under contract.

Design Aircraft: B-737
2001 Enplanements: 3,776
Airport Class: Non-Primary
Last pavement condition survey: 1999

Next planned pavement condition survey: 1999
 Next planned pavement condition survey: 2003

• 2002 reported pavement maintenance and/or changed conditions: No reports

Recommendations: See PCI maps
